Volume 1 No. 12

In preparation

This is an exciting time! The Nominating Committee has been prayerfully and diligently working to nominate the Search Committee that will recommend your next settled pastor.

This Sunday at the Quarterly Meeting the names will be presented for your approval.

I hope you will attend and share in this important time in the life of Kingston Congregational Church.

DID YOU PARTICIPATE IN THE WALK FOR SHELTER?

Please visit the kiosk and jot down how much money you raised.

We will celebrate your gifts and generosity in worship soon!

A Brief History of Earth Day

- ◆ When the first Earth Day was marked in 1970 it birthed the modern environmental movement.
- ◆ Senator Gaylord Nelson from Wisconsin proposed the first nationwide protest of environmental degradation as a way to draw political attention to the need for better environmental care.
- ◆ The first Earth Day led to the creation of the Environmental Protection Agency and the passage of the Clean Air, Clean Water and Endangered Species Act.
