## **Thoughts on Community** **From Joan Chittister**

First, love costs.

It costs the little daily things-serving the meals, asking for favors, refusing favors gently.

Second, love makes demands.

It demands that we use our gifts for our communities as well as for others.

It demands that we make relationships a priority. It demands that we make community for others.

It demands that we share ourselves, our minds, our insights, and our time with one another.

Most of all, it demands that we allow the people in our lives to be who they are and to grow as they can.
